

Handloading?

Would a training course be useful?

“Reloading for metallic cartridges – the basics”.

These classes are conducted by Stuart and Annie Elliott as part of their BRT courses.
www.benchresttraining.com ph [3808-4862](tel:3808-4862) email <stuart@benchrest.com.au>

This course will be particularly useful to those who are considering starting out handloading as well as those already into reloading. There is a huge selection of equipment and tools on the market and making sense of it all is sometimes overwhelming and some concepts difficult to understand. This course includes theory and practical demonstrations as well as discussions on equipment, storage, legal issues and troubleshooting.

Some of the course subjects will include;

- The reasons for reloading.
- Safety issues,
- The basic components,
- Understanding headspace,
- The equipment and tools,
- Books and manuals,
- Basic setup and the reloading procedure,
- Accuracy testing and record keeping,
- Safe storage,
- Troubleshooting and problems.

Course notes will be provided and a certificate of attendance upon completion. There will be *PowerPoint* presentations, notes and illustrations plus practical demonstrations.

Where: The courses are conducted in the conference room, upstairs at the *Queensland Gun Exchange & Fishing*, 181-183 Wellington Rd, East Brisbane.

When: The 4th Saturday of each month and go from 8.30am to 1.00pm.

Cost: \$55 (inc GST). Bookings and prior payment are essential.

How: Phone the Q.G.E. on 33930933. Can pay with credit card.

A 5% discount for course participants on reloading equipment & components purchased at the QGE on the same day.
