Target Proposals

- 300 metres is a 400 yard full bore target
- 400 yards is a 500 yard full bore target
- 500 yards is a 500 yard full bore target

As indicated above the standard full bore targets will be used with a concession of "one up scoring". This means that if you get an inner four it is recorded as a five and so on, keeping the event more in context with the accuracy standards of the issued rifles. See Australian Target Rifle, issue 78, January/February 2009 page 29.
